This one-week 3D design course will give you the opportunity to explore different iconic materials used in product design, researching their properties and uses throughout history. You will be introduced to drawing techniques, 3D making skills as well as product photography allowing you to explore the product design process from concept development through to design. Access will be given to the college's workshops giving you the opportunity to experiment and investigate materials before creating your 3D product.

WHAT'S INCLUDED

TUITION
25+ Hours tuition comprised of lectures and creative practical workshops working towards a final project

ACTIVITIES
5 evening activities per week, designed to be fun and interactive and provide our students the opportunity to socialise and make new friends.

EXCURSIONS
Full day excursions allow students to really get to know the UK. We use major destinations such as London as a classroom, where students will find creative and cultural information through guided walks and visits to museums and other places of interest.

CERTIFICATE
Awarded for the successful completion of the course and final project

LEARN FROM ART AND DESIGN PROFESSIONALS

This programme will give you the chance to study in central Cambridge in a fun and creative environment led by experienced tutors at CSVPA.

BROADEN YOUR SKILLS IN THE INDUSTRY

Exploring idea generation through material investigation and fabricating processes, you will gain an understanding of the basic skills required for a wide range of 3D design disciplines. Through experimentation and quick-fire responses to the brief, you will start to understand the idea behind key 3D Design principles, including scale, abstraction, material, structure, form movement and colour and their place within wider design pathways.

DEVELOP YOUR SKILLS IN:

Material understanding | Model fabrication |
Presentation | Idea generation and development | Conceptual thinking
