ขั้นตอนการทำ UK evisa

Important information about your evisa to the UK immigration system

The UK border and immigration system is becoming digital. This means that physical documents like BRPs and vignette visa stickers are being replaced by eVisas.

eVisa process

An eVisa is an electronic record of your immigration status. eVisas remove the need for physical documents, including BRPs. Updating your physical document to an eVisa does not affect your immigration status or the conditions of your permission to enter or stay in the UK.

You will need to create a UKVI account at <https://www.gov.uk/get-access-evisa>.

This will require:

- Your Passport
- Your date of birth
- Access to an email address and phone number
- Access to a smartphone

The screenshot shows the GOV.UK website with the following content:

- Header: GOV.UK

Access your eVisa

You must first create a UKVI account.

To create an account, you'll need a phone number and email address that you can use each time you sign in.

You'll also need one of the following, if you have them:

- a valid passport and your visa application number - this is a global web form (GWF) number or unique application number (UAN)
- a valid passport and your BRP number
- your expired BRP card - you can use it for 18 months after the expiry date printed on the card

After you create your account you'll be asked to confirm your identity and link your account to your eVisa.

You'll need access to a smartphone so you can install an app to confirm your identity. You'll be able to confirm your identity another way if you either:

- do not have a valid passport or an expired BRP card
- cannot access a smartphone or use the app

Create a UK Visas and Immigration (UKVI) account

You need to create a UKVI account to:

- view your immigration status (eVisa) online
- access someone's account so you can help them get an eVisa
- act on behalf of someone who cannot manage their account. For example, a young child or vulnerable person
- confirm your identity, update your details or get proof of your immigration status

What you need

You will need to provide some information about yourself, including your name, nationality, and date of birth.

If you have either a valid passport or a biometric residence permit (BRP), you will need to have this document with you. You can use an expired BRP if it expired less than 18 months ago. You can still create an account if you do not have one of these documents.

You will need access to your email address or phone number, as we will send codes to check it is really you. If you want to give someone access to your account, you will need their email and phone number.
